Water Lilies

Interest in water gardens is growing rapidly, and there are sound reasons for it. As the principal feature of interest in the small garden, a pool answers admirably. It can be made to harmonize with either natural or formal styles, and fits well into most designs. It will furnish a home for goldfish, and other aquatic animal life, while the bog plants and water lilies which can be grown in it have both beauty and strangeness to attract all. Garden makers are learning how easy it is to grow water plants and how richly they reward them.

We have prepared a leaflet giving complete directions for the cultivation of hardy Water Lilies, Aquarium Plants and other Aquatics. Copies free on request.

Helen Fowler. A continuous bloomer, sweet scented, deep pink with lighter pink centers. \$1.25 each.

James Brydon. Rich rosy crimson, reverse of petals having a silvery sheen. \$2.50 each.

Marliacea Albida. White petals with yellow stamens, and very fragrant. A continuous bloomer. Sepals are tinted with pink. Leaves are deep green above, and red beneath. \$1.50 each.

Marliacea Chromatella. Petals and stamens bright yellow, 4 to 6 inches across. A free and continuous bloomer. \$1.50 each.

Rose Arey. The bright cerise flowers of iridescent hue are very large, up to 8 inches in diameter, very sweetly scented with pointed petals, giving effect of darker shadings near the edges. Long, bright yellow stamens. \$2.00 each.

Tuberosa Rosea. Shell pink. \$1.00 each.

Odorata Gigantea. White. 50c each.

Unnamed Yellow. 50c each.

Lohrman's Evergreen Lawn Seed

Success in lawn making requires, first of all, good seed. There is no excuse in these days for guesswork about seed. Laboratory tests show its purity and its germination. We do not buy, nor do we sell, seed which fails to meet our high standards, by test in our own seed laboratory.

This blend is composed of heavy, re-cleaned seed, blended according to the formula proved in our thirty-eight years' experience to be the best for permanent lawns under American conditions and recommended by the Department of Agriculture. Re-cleaned Kentucky Blue Grass and Red Top form the bulk of this blend, to which is added White Clover in the correct proportion. Our blend produces a lawn that will endure. **Lb., 50c; 3 lbs., \$1.35; 5 lbs., \$2.00; 10 lbs., \$3.75; 20 lbs., \$7.00; 100 lbs., \$32.50.**

How to Make a Lawn with Evergreen Lawn Seed

Preparation of Soil. Dig the soil about 6 inches deep, but only when it is dry. Rake until soil is smooth and in fine condition.

Fertilizing. Use complete **Plant Food**, an odorless fertilizer, at the rate of one-half ton per acre, 50 lbs. per 1000 square feet, 5 lbs. per 100 square feet.

Sowing the Seed. Sow our **Evergreen Lawn Seed** at the minimum rate of 100 lbs. per acre or 1 lb. to each 300 square feet. Bury the seed not more than one-eighth inch deep. Roll the seeded area, but should rain fall before the work is completed, defer the rolling until the land has dried.

Grass for Shady Locations. Follow the above directions but use our **Shady Lawn** instead of our **Evergreen Lawn Seed**.

Renovating an Old Lawn. First—Rake the lawn well, removing as much dead grass as possible. Second—Apply fertilizer according to the above directions. Third—Sow our **Evergreen Lawn Seed** at the rate of 50 lbs. per acre or 1 lb. per 600 square feet. Fourth—Either rake the lawn lightly or roll it in order to cover the seed.

Lohrman's Fairway Mixture

This special mixture produces beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire summer and fall. This mixture does not contain any clover. In making up this brand we are careful to use only seed that has been thoroughly re-cleaned. **Lb., 50c; 3 lbs., \$1.35; 5 lbs., \$2.00; 10 lbs., \$3.75; 20 lbs., \$7.00; 100 lbs., \$32.50.**

Kentucky Blue Grass

(June Grass)

We recommend this hardy sort as the best grass for lawn purposes. It is slightly creeping in habit and grows most extensively in the early summer. It forms a good turf, is permanent and makes an ideal lawn. Well adapted to all soils. **Lb., 40c; 3 lbs., \$1.15; 5 lbs., \$1.75; 10 lbs., \$3.25; 20 lbs., \$6.00; 100 lbs., \$27.50.**

Red Top—Fancy

A variety well adapted to growing where extensive care cannot be expended on the lawn. The leaf-blades are narrow, becoming very thin with turf cultivation. It gains maximum development in early fall. Succeeds in all soils. **Lb., 35c; 3 lbs., \$1.00; 5 lbs., \$1.50; 10 lbs., \$2.75; 20 lbs., \$5.00; 100 lbs., \$22.50.**

Poa Trivialis Grass

An ideal shade grass, and is a perennial closely related to Kentucky Blue Grass, but somewhat finer and softer. It has a splendid apple-green color and is a creeper. Sow in fall or spring at rate of 1 pound to every 300 square feet. **Lb., 50c; 3 lbs., \$1.40; 5 lbs., \$2.25; 10 lbs., \$4.00; 20 lbs., \$7.50; 100 lbs., \$35.00.**

English or Perennial Rye Grass

It is used in lawn grass mixtures as a nurse crop to protect the finer grasses. **Lb., 25c; 3 lbs., 65c; 5 lbs., \$1.00; 10 lbs., \$1.50; 20 lbs., \$2.50; 100 lbs., \$10.00.**

Chewings Fescue

Used extensively for golf courses, and is one of the best grasses for this purpose, as it is creeping in habit and soon forms a solid, compact turf. Valuable for terraces or exposed hillsides. Does well on thin or poor soils and is extremely resistant to drought. **Lb., 60c; 3 lbs., \$1.65; 5 lbs., \$2.50; 10 lbs., \$4.75; 20 lbs., \$9.25; 100 lbs., \$45.00.**

Shady Place Mixture

This is a mixture of extra-fine grasses adapted for growing in the shade and under trees. We recommend the use of this mixture wherever other grasses have failed to make a close sward on account of shade. To obtain the best results, the seed should be sown very early in spring. In most shady places the soil has a tendency to be sour, and we suggest the use of **Land Lime** at the rate of about 100 pounds to each 2000 square feet to sweeten it. Sow at the rate of 1 pound per 200 square feet for a new lawn, or about half that quantity for renovating existing turf. **Lb., 60c; 3 lbs., \$1.65; 5 lbs., \$2.50; 10 lbs., \$4.50; 20 lbs., \$9.50; 100 lbs., \$45.00.**

Bent Grass, Certified Astoria Bent

(Sometimes called Cocos Bent)

A comparatively new and distinct kind of grass; seldom produces stolons but spreads from underground root stalks. In rich soil it will produce a deep, rich green-colored turf much finer in texture than ordinary lawns. Several times during the growing season, use **Wedo**, at the rate of 2 lbs. per 100 square feet. **1/2 lb., 80c; 1 lb., \$1.50; 3 lbs., \$4.35; 5 lbs., \$7.00; 10 lbs., \$13.50; 20 lbs., \$26.00.**

Lohrman's Superior Bent Grass Mixture

For those who desire a lawn similar to a putting green we are now prepared to offer our **Superior Bent Grass Mixture**. This mixture is composed chiefly of **Bent Grass** combined with other rapid growing grasses that act as a nurse or shelter crop for the slower growing **Bent** until it becomes established. Water often during dry weather and keep grass cut short. Sow this formula at the rate of 1 pound to a space 10 to 20 feet or 200 square feet. **Lb., 95c; 3 lbs., \$2.70; 5 lbs., \$4.25; 10 lbs., \$8.00; 20 lbs., \$15.00; 100 lbs., \$70.00.**

White Dutch Clover for Lawns

This is of particular value in lawn mixtures, and will grow on almost any kind of soil. Being very hardy and of creeping habit, it will also prevent the ground from being washed away by heavy rains. 5 to 6 lbs. per acre. **Lb., 60c; 3 lbs., \$1.70; 5 lbs., \$2.75; 10 lbs., \$5.25; 100 lbs., \$50.00.**

Timothy

The most popular of all hay grasses. A stand is easily secured and growth is very rapid. **Lb., 25c; 3 lbs., 60c; 5 lbs., 75c; 10 lbs., \$1.25; 20 lbs., \$2.00; 100 lbs., \$7.50.**

Feeds Grass
Fights Weeds

The secret of weed-free lawns lies largely in the use of the right fertilizer, periodical reseeding and proper mowing. Many fertilizers aid weed development. Manures actually carry weed seeds to your lawn. But **Wedo**, the special fertilizer for lawns only, fights the weeds both physically and chemically.

10 lbs., 95c; 25 lbs., \$2.00; 50 lbs., \$3.75; 100 lbs., \$6.50; 500 lbs., \$30.00; 1000 lbs., \$55.00; ton, \$100.00.
